ASM Heat Treat Show. The recent ASM Heat Treat Show is now in our rear view mirror and in our opinion it was a success both from an organizational standpoint and an attendance standpoint (although until we see attendance figures we can't confirm the attendance part). Our opinion is contrary though to more than a few exhibitors who felt attendance was down-again time will tell. We leave you with a few more photos from the show. Incidentally next week we will be reporting from HK 15 the annual heat treating exhibition in Cologne, Germany.
October 23/2015

Rhode. German furnace builder Rhode is shown here along with guest star star Damian Bratcher of SSI.
